

This remarkable rig can drill 300mm diameter holes in just about anything. The rig can operate inside buildings and tunnels with its remote power pack design. Its small size has given contractors greater flexibility in hole placement and design. Existing structures can now be worked around rather than removed, thus saving time and expense.

## Technical Data

Height when drilling	2200mm
Min. Width	720mm
Max. Width	1020mm
Weight	970kg
Feed stroke	1350mm
Recc. auger length	1000mm
Rotation speed	90rpm
Max. Torque	5000nm
Tear out force	2500kgs
Mast angle	-5 + 90
<b>Power pack</b>	
Weight	1100kgs
<b>Hydraulics</b>	
Hoses	25m
