

Techno Drill T750

The T750 was developed for smaller driven piling jobs, the power pack is a road towable unit that can be also towed by the rig, or positioned on site and the rig operated independently via the 20-25 meter hydraulic hoses allowing the use of the rig into confined space of houses etc.

Technical Data

Specifications

Height when driving	1500 mm
Width adjustable	800 – 1050 mm
Length when driving	1200 mm
Length when tracking	1350 mm
Weight without hammer	700 kg
Maximum hammer weight	0.6 ton

Weight and Dimensions

Gross weight	Rig 700 kg, powerpack 800 kg
Operating length rig	1700 mm
Operating height rig	2.10
Overall width rig	800 mm – 1050 mm
Transport length	3.3 m (including powerpack)
Transport height	1.5 m
Maximum hammer weight	0.6 T
