

# T5000

# T5000

This remarkable rig can drill 300mm diameter holes in just about anything. It can operate inside buildings and tunnels with its remote power pack design. Its small size has given contractors greater flexibility in hole placement and design. Existing structures can now be worked around rather than removed, thus saving time and expense.

## Technical Data

Height when drilling	2200mm	Maximum torque	5000Nm
Minimum width	720mm	Tear out force	2500kg
Maximum width	1020mm	Mast angle	-5 +90
Weight	970kg	<b>Power pack</b>	
Feed stroke	1350mm	Weight	1100kg
Recc. Auger length	1000mm	<b>Hydraulics</b>	
Rotation speed	90rpm	Hoses	25m
